

This policy regulates dealings in the Company's Securities by Directors, Executive Officers and Employees. The Directors will monitor and review the application of the policy to ensure its appropriateness as the Company develops.

The fundamental principle of the policy is that Directors, Executive Officers and Employees are not permitted to trade in the Company's Securities while in possession of information that is not generally available in the public domain in order to ensure compliance with the insider trading provisions of the Corporations Act. In addition, this policy applies to advisers, contractors and consultants who may obtain confidential or price sensitive information in relation to the Company.

Insider trading occurs when a person trades in a Company's shares while the person is in possession of information that is not generally available to the public and which if it were, a reasonable person would expect it to have a material effect on the price or value of the Company's shares. This extends to passing on price sensitive information to family, friends or other persons who may use that information to trade in the Company's securities.

The penalty for breach of the insider trading provisions of the Corporations Act includes fines and, in some circumstances, a jail term.

It is the responsibility of the individual to ensure they do not buy or sell or trade or provide relevant information or advice to third parties while in possession of price sensitive information. This responsibility remains with the individual and cannot be varied or absolved by seeking to rely on statements by any Executive Officer or Director of the Company.

Directors

Directors are not permitted to buy or sell or trade in the Company's shares from the end of the relevant accounting period (31 December & 30 June) to the release of the Company's financial results for that period.

At all other times, the Directors must obtain a "No Objection" notice which will be issued by the Company Secretary, after consultation with the Chairman and Managing Director or in the case of the Chairman, the Chairman of the Audit, Risk & Compliance Committee. The Company Secretary will advise all Directors that a "No Objection Notice" has been approved at the time of approval. The notice will only be considered after the Director confirms in writing, on a "No Objection Request" form, that they are not in possession of any price sensitive information. The "No Objection Request" form should be submitted to the Company Secretary.

Directors may trade once a "No Objection" notice has been issued but only until the earlier of 10 business days after issue of the notice, the date they become aware of unpublished price sensitive information or the date the "No Objection" notice is withdrawn by the Company.

Executive Officers

Executive Officers and relevant Employees involved in the preparation of the Company's financial results are not permitted to buy or sell or trade in the Company's shares from the end of the relevant accounting period (31 December & 30 June) until the release of the Company's financial results for that period.

At all other times, the Executive Officers must confirm in writing that they are not aware of any unpublished price sensitive information prior to being issued with a "No Objection" notice. Such written confirmation must be on the "No Objection Request" form attached to this policy and submitted to the Company Secretary. A "No Objection" notice will be issued by either the Managing Director or the Company Secretary.

Executive Officers may buy or sell Securities in the Company once a “No Objection” notice has been issued but only until the earlier of 10 business days after issue of the notice, the date they become aware of unpublished price sensitive information or the date the “No Objection” notice is withdrawn by the Company.

Employees

Employees are expected to comply with the law. Employees shall comply with the rules set out in this policy in regard to “insider trading” but do not need to apply for a “No Objection” notice.

Directors, Executive Officers and Employees

General Restrictions on the ability of Directors, Executive Officers and Employees to trade in Securities, notwithstanding the above:

- **Directors, Executive Officers and Employees** are prohibited from buying or selling Securities at any time if they are aware of any information of a potentially price sensitive nature which has not been released to ASX or has not otherwise been made public.
- **Directors, Executive Officers and Employees** shall in all circumstances be prohibited from:
 - “short-selling” Securities (or an interest in Securities) - that is selling Securities, or an interest in Securities, beyond the level of the Employee’s holdings;
 - trading in Securities which operate to limit the economic risk associated with an Employee’s holding of unvested Securities which are to be issued, subject to the Employee having satisfied certain performance conditions, under the Company’s Performance Equity Plan or the Employee Tax Exempt Share Acquisition Plan; or
 - trading in Securities which enable an Employee to profit from a decrease in the market price of Securities.

The responsibility for trading in the Company’s Securities remains with the individual at all times.
