1. OVERVIEW

1.1 Introduction

Cardno is offering up to 620,338 Shares in the Company calculated at a deemed Issue Price of \$5.33983 per Share to the Vendors, as part payment of the Purchase Price for the Acquisition. The Shares subscribed for and allotted under this Prospectus to the Vendors will satisfy approximately 25% of the Purchase Price (subject to rounding) payable to each Vendor. The Shares will be issued at the Issue Price. No additional cash consideration is payable to Cardno Limited by any Vendor under the Application.

The Purchase Price payable to each Vendor under the Acquisition will be reduced by the aggregate Issue Price of the Shares subscribed for under this Offer, with the balance of the Purchase Price under the Acquisition being paid to the Vendors by Cardno in cash.

Under the terms of the Share Sale Agreement, each Vendor must subscribe for 25% of the total portion of the Purchase Price they are entitled to for selling their interest in the HRP Group to the Buyer.

1.2 Risks

The Company and the Shares acquired under this Offer are subject to risks. The Vendors should seek professional advice and read the more detailed statement of risks in Section 5 of this Prospectus.

Key risks include:

- **Growth strategy** – Cardno’s recent history of strong growth reflects its ability to identify, acquire and integrate complementary businesses. There is no certainty that Cardno will be able to identify appropriate acquisitions in the future. There is a risk that the Company may be unable to manage its future growth strategies successfully.
- **Professional negligence and insurance** – a successful claim for professional negligence against Cardno or its Subsidiaries may adversely affect Cardno’s reputation and otherwise impact Cardno in terms of costs incurred in defending claims, the payment of any amount of liability that exceeds available insurance coverage and increasing future insurance premiums.
- **Currency risk** – Cardno operates internationally and is exposed to foreign exchange risk arising from the currency exposure to the Australian dollar.
- **Competition** – The engineering, environmental and professional consulting practice industry in which Cardno operates is highly competitive in the United States of America, Australia and other overseas markets in which Cardno operates and continues to expand, which may adversely impact on the Company’s financial performance.
- **Economic factors** – There are a number of general economic factors, including macro economic policy, taxation and regulation which, either individually or collectively, have the potential to adversely impact Cardno’s financial performance. These are more specifically set out in Section 5.

As an ASX listed company, additional information concerning the Company, its business plans and risks associated with those plans are announced to the market and are readily available. This

Prospectus, under section 713 of the Corporations Act, is deemed to include information subject to market announcements. Please refer to Section 7 of this Prospectus for further details of important documents.

Investors should read this entire Prospectus and, in particular, consider the risk factors that could affect the financial performance of Cardno before deciding to invest. A summary of risks applying to an investment in Cardno is set out in Section 5 of this Prospectus.

Investors should carefully consider the risks in light of their personal circumstances (including financial and taxation issues) and seek professional advice from their stockbroker, accountant or independent financial adviser.

1.3 Impact of the issue on the capital structure

Cardno currently has 110,301,978 Shares, 7,314,200 Options and 889,000 Performance Rights on issue. Details of the interests of Directors are contained in Section 7.4.

On completion of the Acquisition, assuming the Offer is fully subscribed by the Vendors and a total of 620,338 Shares are issued, being the maximum number of Shares the Vendors may collectively subscribe for, the Company will have 110,922,316 Shares on issue.

1.4 Applying for Shares

The Vendors may apply for Shares as set out in Section 3.

1.5 Financial summary

As required by the ASX continuous disclosure rules, Cardno provides regularly updated financial information to ASX and this information can be viewed on the Cardno website, the ASX website or by contacting ASX.

1.6 Underwriting, advisory and handling fees

There are no underwriting, advisory or handling fees associated with this Offer.

1.7 ASX quotation

Cardno is listed on ASX and its Shares are quoted on ASX.

Application will be made by the Company within 10 business days after the date of this Prospectus for quotation of the Shares, offered under this Prospectus, on ASX.

If ASX does not grant quotation of all of the Shares within 3 months of the date of this Prospectus, the Company will act in accordance with section 724 of the Corporations Act and the terms of the Share Sale Agreement.

1.8 Withdrawal

The Directors may at any time decide to withdraw this Prospectus and the Offer.

If this Prospectus and the Offer are withdrawn for any reason, the Corporations Act requires the Company to return all application monies to the applicants.

Given no cash application monies are being paid to the Company for the Shares, but rather the Shares are being issued as part payment for the Acquisition, in the event of withdrawal of the

Prospectus or the Offer, the Acquisition will not proceed unless Cardno pays the Vendors the entire Purchase Price in cash.

Cardno reserves its rights under the Share Sale Agreement.

2. DETAILS OF THE SHARE ISSUE

2.1 Purpose of Offer

The Buyer, a wholly-owned subsidiary of Cardno Limited, is acquiring the Humphreys Reynolds Perkins Group (**HRP Group**) from the Vendors with the Acquisition to be completed on or about 1 December 2011, unless this date is reduced or extended by the Directors.

The Purchase Price entitlement of each Vendor for the Acquisition is to be satisfied through the Offer of Shares in Cardno Limited under this Prospectus of approximately 25% of each Vendor's Purchase Price entitlement (subject to rounding), with the balance to be satisfied by a cash payment.

The Company is offering Shares to the Vendors as a component of the Buyer's consideration for the Acquisition.

The total value of the Shares that all Vendors are able to apply for under this Prospectus is approximately \$3.3125 million. The Issue Price of the Shares issued to each Vendor under this Prospectus will reduce the remaining cash component of the Purchase Price owing to each Vendor by the Buyer in consideration for the Acquisition.

The Company has sufficient working capital to meet its stated objectives. Revenue received as a result of the Acquisition will form part of the general working capital of the Company. The issue will not have a material impact on the Company's Balance Sheet.

2.2 Share Issue details

Cardno is offering for allotment up to 620,338 Shares calculated at a price of \$5.33983 per Share to the Vendors, in part-consideration for the Acquisition by the Buyer of the HRP Group.

The maximum number of Shares the subject of this Offer have been calculated based on approximately 25% of the aggregate Purchase Price owing to each Vendor divided by the Issue Price per Share (subject to rounding), which is equivalent to approximately \$3.3125 million worth of Shares.

The Issue Price of \$5.33983 per Share has been calculated in accordance with the Share Sale Agreement based on the volume weighted average price (**VWAP**) of Cardno Shares in the 10 trading days prior 23 November 2011.

The Vendors are entitled to apply for Shares offered under this Prospectus as approximately 25% of their portion of the Purchase Price for the Acquisition (subject to rounding). Accordingly, the subscribed Shares will not be issued to the Vendors for cash payment, but rather a deemed Issue Price.

2.3 Allotment

Allotment of Shares offered under this Prospectus will be made as soon as possible after the Closing Date. Cardno Limited reserves the right to allocate Shares in full on any Application, or to allocate any lesser number, or to decline any Application. Where no allotment is made, the full Purchase Price will be payable by the Buyer to the relevant Vendor in cash.

Where the number of Shares allotted is less than the number of Shares applied for, the balance of the Purchase Price to which that Vendor is entitled will be satisfied by Cardno in cash in

accordance with the terms of the Share Sale Agreement. Because no cash monies will be required for the subscription for Shares under this Prospectus, no interest can accrue.

2.4 Rights attaching to Shares

The Shares offered under this Prospectus will rank equally in all respects with the Shares currently on issue. The rights attaching to all Shares are detailed in the Constitution, a summary of which is contained in section 6. A copy of the Constitution can be obtained by contacting the Company Secretary.

2.5 Dividend policy

Cardno's current dividend policy is, subject to the Corporations Act, to pay out approximately 60% of the Cardno Group's after tax profits as dividends.

Cardno's dividend policy is subject to future business conditions and opportunities and cash flow requirements. The extent, timing, level of franking or payment of any future dividends are dependent on a number of factors, including the level of earnings, the amount of tax paid and the financial position of Cardno, operating conditions and the occurrence of any of the events listed in Section 5.

2.6 Offer not underwritten

The Offer is not underwritten.

2.7 ASX Quotation and Escrow

Not later than 10 business days after the date of lodgement of this Prospectus, an application will be made to ASX for quotation of the Shares.

The fact that ASX may admit the Shares for quotation is not to be taken in any way as an indication of the value or merits of Cardno Limited or the Shares offered for subscription. Quotation, if granted, will commence as soon as practicable after the issue of holding statements to successful Applicants. If permission for quotation of the Shares is not granted within 3 months after the date of this Prospectus, the Company will take steps to pay the Vendors cash of equivalent value to the Shares the Vendor subscribed for in order to satisfy the Buyer's payment obligations under the Share Sale Agreement.

Shares issued under this Prospectus will be subject to restrictions on dealing (escrow) for a period of 18 months from the Issue Date. Applicants receiving Shares will enter into voluntary restriction agreements and consent to the application of a holding lock by the Company's Share Registry.

2.8 CHESS

Cardno participates in the security transfer system known as CHESS. Under CHESS, Cardno does not issue certificates to shareholders in Cardno. The Company operates an electronic issuer sponsored sub-register and an electronic CHESS sub-register. Shareholders receive a notice advising them of their holder identification number and sponsoring issuer number, participant identifier in the case of a holding on the CHESS sub-register, or security holder reference number in the case of a holding on the issuer sponsored sub-register, allowing the Shares to be traded electronically.

Following distribution of the initial holding statements and CHESS notifications to shareholders, a holding statement will be provided to a shareholder at the end of any subsequent month during

which there has been a movement in their shareholding. Shareholders may also request Cardno to provide a statement at other times, although the Company may charge an administration fee in these circumstances.

2.9 Foreign investors

No action has been taken to register or qualify the Shares or the Offer, or otherwise to permit an offer of the Shares in any jurisdiction outside Australia.

This Prospectus does not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an offer or invitation. The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

2.10 Withdrawal

The Directors may at any time withdraw this Prospectus and the Offer.

If this Prospectus and the Offer are withdrawn for any reason, the Corporations Act requires the Company to return all application monies to the applicants. Given no cash application monies are being paid to the Company for the Shares, but rather the Shares are being issued as part payment for the Acquisition, in the event of withdrawal of the Prospectus or the Offer, the Acquisition would not proceed unless Cardno pays the Vendors the entire Purchase Price in cash.

2.11 Investment Risks

In addition to the general risks associated with any investment in the equity market, there are certain risks inherent in investing in a professional services, consulting engineering and software product business. Investors should be aware that an investment under this Prospectus is likely to involve exposure to risks specific to the Company's operations. A more detailed description of some of the risk factors is contained in Section 5 of this Prospectus. Investors should consider all risks and seek professional advice before investing.

4. FINANCIAL INFORMATION

4.1 Continuous Disclosure

Cardno is a disclosing entity for the purpose of the Corporations Act and as such is subject to regular reporting and disclosure obligations under the Corporations Act and the Listing Rules. These obligations require Cardno to notify ASX of information about specified events and matters as they arise for the purpose of ASX making that information available to the securities market conducted by ASX. In particular, Cardno has an obligation under the Listing Rules (subject to certain limited exceptions) to notify ASX immediately once it becomes aware of any information concerning Cardno, which a reasonable person would expect to have a material effect on the price or value of Shares or other securities issued by Cardno. That information is available on the public file at ASX.

Copies of documents lodged with ASIC in relation to Cardno may be obtained from, or inspected at, an ASIC office.

The last Financial Report of the Company was issued for the financial year ending 30 June 2011. All information provided to the public is available on the ASX website.

5. RISK FACTORS

5.1 Overview

Set out below are some of the important business risks relevant to an investment in Cardno. In addition, Cardno is exposed to risks relevant to many businesses, including increasing competition, information systems failure risk and protection of intellectual property. This section is intended to be a concise summary of the key risks to Cardno's business – not an exhaustive list of all possible risks.

References to Cardno in this Section include its subsidiaries.

5.2 Risks associated with Cardno

Professional negligence

As a professional service provider, a significant risk for Cardno is that claims of professional negligence may be made against it. Cardno maintains professional indemnity insurance to mitigate its exposure to liability in the event of a claim of negligence.

A successful claim for professional negligence against Cardno may adversely affect Cardno's reputation, increase future insurance premium costs and, to the extent the claim is not insured or indemnity is refused by the insurer, may cause material financial loss.

Cardno may be unable to obtain appropriate professional indemnity cover for all work it undertakes. Cardno's work in overseas countries may be considered by insurers to present additional risk, depending upon political and litigious circumstances in the country in question.

Reputation

Cardno has developed a reputation in the trade name 'Cardno', which is used in most of the consulting services that it provides. Any event that damages Cardno's reputation in one part of its businesses, may adversely affect the reputation of other Cardno businesses by virtue of the common use of the name 'Cardno'.

Adverse publicity about engineers or other professionals in Cardno or other engineering, environmental or professional consulting practices may impact on the overall reputation of the industry, and accordingly, Cardno.

Growth strategy

Cardno's recent history of strong growth reflects its ability to identify, acquire and integrate complementary businesses. While Cardno intends to continue to pursue its growth strategy both organically and through acquisition, there is no certainty that Cardno will be able to continue to identify appropriate acquisitions in the future. Alternatively, even if suitable acquisitions are identified, Cardno may not be able to execute effectively the strategies for those businesses. Implementation of such a growth strategy potentially exposes Cardno to unforeseen costs, including an imposition on management time and resources.

Cardno has achieved growth in operating and financial performance in recent years. There is a risk that the Company may be unable to manage its future growth opportunities successfully.

Dependence upon key personnel

Cardno depends on the talent and experience of its management and staff. It is essential that appropriately skilled management personnel and staff be available in sufficient numbers to support Cardno's consulting engineering, environmental and other professional services and to maintain the diversity of Cardno's business. Given this diversity, Cardno's management and staff must be professionally skilled in many areas, some of which are niche specialities of engineering, environmental and other professional fields in which few practitioners may be available for recruitment. Any departure of key management or staff may have a negative effect on Cardno, particularly if management or staff leave to work for a competitor.

Oil & Gas, Mining, Engineering & Construction industry

A number of Cardno's clients are involved in the oil and gas, mining and construction industry and this industry can be cyclical in the volume of business undertaken. Although Cardno has a diverse geographical and client base, the cyclical downturns in those industries in the United States of America, Australia and elsewhere overseas may adversely impact on Cardno's financial performance.

The loss of major clients through such industry downturns or for any other reason could also impact the earnings of Cardno.

Development assistance

Cardno provides services to clients in the development assistance industry including developed country government bilateral aid organisations, multilateral aid agencies and aid banks, and developing country governments. Any substantial reduction in expenditure on overseas aid by governments could be material in the context of Cardno's development assistance business. AusAID and USAid are major clients of Cardno and the loss of or reduction in work from these clients in particular may have a material effect on Cardno's development assistance business.

Foreign operations

There are certain risks inherent in doing business internationally, such as unexpected changes in regulatory requirements, tariffs, customs, duties and other trade barriers, difficulties in staffing and managing foreign operations, longer payment cycles, problems in collecting accounts receivable, political instability, expropriation, nationalisation and war. There may also be fluctuations in currency exchange rates, foreign exchange controls which restrict or prohibit repatriation of funds, technology export and import restrictions or prohibitions and delays from customers, brokers or government agencies. Cardno could also be adversely affected by seasonal reductions in business activity and potentially adverse tax consequences.

In some countries, Cardno may need to enter a joint venture or other strategic relationship with one or more third parties in order to successfully conduct its operations, and may be required by law to hold only a minority interest in any operating entity. To the extent it is a party to joint ventures, Cardno may be subject to loss of proprietary information and other assets, risky business practices and other strategic decisions contrary to Cardno's interests. In addition, any international expansion could require a significant diversion of financial and technical resources and management attention from operations in Australia. There can be no assurance that laws or administrative practice relating to taxation, foreign exchange or other matters of countries in which Cardno intends to operate will not change.

Currency risk

Foreign exchange risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not the entity's functional currency. Cardno operates internationally and is exposed to foreign exchange risk arising from the currency exposure to the Australian dollar.

International hostilities and disasters

Cardno's performance and the ability of its clients to commission work may be affected by global tensions or the commencement of military action in the overseas markets in which it operates. In addition, the risk of terrorist activity may reduce work opportunities or make it unsafe for Cardno to continue operations in a particular country. The occurrence of natural disasters can also prevent planned work from taking place.

5.3 General risks

Investment risks

Factors affecting the price at which the Shares are traded on ASX could include domestic and international economic conditions. In addition, the prices of a listed entity's securities are affected by factors that might be unrelated to its operating performance, such as general market sentiment.

Funding risk

Cardno's ability to continue its current operations and effectively implement future business plans may depend on its ability to raise additional funds. There is no guarantee that equity or debt funding will be available to Cardno on favourable terms or at all or that, when an existing facility expires or is otherwise terminated (e.g. due to an event of default), Cardno will be able to refinance that debt facility on reasonable terms.

An inability to raise additional funds or refinance existing facilities may have a material adverse effect on Cardno's operating and financial performance.

Macro economic risks

Cardno's operational and financial performance is affected by the Australian, United States of America and other international economies and, in particular, the oil and gas, mining and construction market within those economies. General and business conditions, inflation, interest rates, monetary and fiscal policy, political circumstances and currency exchange rates are all matters which may affect Cardno's operating and financial performance.

Taxation risks

A change to the current taxation regime in Australia or overseas may affect Cardno and its shareholders.

Accounting standards

Australian accounting standards are set by the Australian Accounting Standards Board (AASB) and are outside Cardno's control. Changes to accounting standards issued by AASB could materially adversely affect the financial performance and position reported in Cardno's financial statements.

Regulation

Unfavourable changes to the regulatory environment for professional services firms either in Australia or in overseas markets in which Cardno operates may affect Cardno's profitability or prospects.

6. MATERIAL AGREEMENTS

6.1 Key documents

The Board considers that certain agreements relating to Cardno are significant to the Offer, the operations of Cardno or may be relevant to investors. A description of material agreements or arrangements, together with a summary of the important details of each of these agreements or arrangements is set out below.

6.2 Constitution

The rights attaching to Shares are set out in the Constitution and in certain circumstances, regulated by the Corporations Act, the Listing Rules, the ASX Settlement Operating Rules and the general law. The following is a summary of the principal rights and liabilities of holders of Shares.

Shares

Shares can be issued with preferred, deferred or other special rights, obligations or restrictions in relation to dividends, voting, return of share capital, payment of calls or other matters, as determined by the Board from time to time. All unissued Shares are under the control of the Board, which may grant options on shares, issue option certificates, allot or dispose of shares on the terms and conditions and for such consideration as it thinks fit. This power is subject to contract or any contrary rules in the Constitution.

The Constitution permits the issue of preference shares on terms determined by the Board.

Share transfers

Shares may be transferred in any manner required or permitted by the Listing Rules or the ASX Settlement Operating Rules and by any instrument in writing in any usual or common form or in any other form that the Board approves. The Board may only refuse to register a transfer of securities of the Company as permitted by the Listing Rules or the ASX Settlement Operating Rules.

Directors need not issue share certificates

Subject to the requirements of the Listing Rules and the Corporations Act, the Company need not issue share certificates.

Voting rights

Each shareholder has the right to receive notice of, and to attend, general meetings of the Company.

Subject to restrictions on voting from time to time affecting any class of shares in the Company, and any restrictions imposed by the Corporations Act, the Shares in the Company carry the right to cast one vote on a show of hands and, on a poll, one vote for each fully paid share held, and for each partly paid share held, a vote having the same proportionate value as the proportion to which the shares have been paid up. Voting may be in person or by proxy, attorney or representative.

Dividend

If the Board determines that a dividend is payable, it will be paid on all shares.

The Board may establish and maintain one or more dividend plans, to which shareholders may elect to take up with some or all their shares subject to the rules of the plan.

Subject to the Listing Rules, the Board has the power to capitalise and distribute the whole or part of the undivided profits of the Company or standing to the credit of any reserve or other account and which is available for distribution. Such capitalisation and distribution must be in the same proportions which the shareholders would be entitled to receive if distributed by way of dividend or in accordance with the terms of issue of any shares or terms of any plan for the issue of securities for the benefit of officers or employees.

The Board has the power to decide whether to pay shareholders an interim dividend on account of the next forthcoming dividend. Any distribution may be paid otherwise than in cash as specified in the Constitution.

No dividend or other monies paid in relation to a share will carry interest as against the Company.

Partial takeover bids

The Company may prohibit registration of transfers purporting to accept partial takeover bids unless and until a resolution of the Company has been passed approving the offers in accordance with the provisions of the Constitution.

Indemnities and insurance

The Company must indemnify current and past directors, secretaries and executive officers of the Company against any liability incurred by them by virtue of their holding office as, and acting in the capacity of, director, secretary or executive officer, other than for legal costs incurred:

- in defending or resisting proceedings, in which the Director, Secretary or executive officer is found to have a liability for which they could not be indemnified;
- in defending or resisting criminal proceedings in which the Director, Secretary or executive officer is found guilty;
- in defending or resisting proceedings brought by ASIC or a liquidator for a court order if the grounds for making the order are found by the court to have been established; or
- and in connection with proceedings for relief to the Director, Secretary or executive officer under the Law in which the court denies the relief. Indemnities also apply to employees in circumstances designated under the Constitution.

Insurance

The Company may also pay insurance premiums for officers who are employees in certain designated circumstances but not where the liability arises out of wilful breach of duty to the Company or an improper use of position or inside information, as prohibited by the Corporations Act.

6.3 Staff Share Plans

Cardno Employee Share Acquisition Plan

All qualifying Company Staff and contractors (excluding executive Directors) are eligible to participate in this plan, which maintains the Company culture of promoting employee ownership. The plan provides for the issue of Shares of up to \$1,000 each year for every participating Company Staff member with 12 months service or greater providing the employee complies with the rules of the scheme and for the issue of Shares of up to \$500 each year for every participating

Company Staff member with 6 to 12 months service providing the employee complies with the rules of the scheme. Benefits under this scheme can be varied by the Board.

Cardno Performance Equity Plan

All Company Staff are eligible to participate in this second plan by which the Board may at its discretion issue Options and/or Performance Rights to acquire Shares as a reward for the outstanding performance of Company Staff. The remuneration committee nominates appropriate recipients under the plan to the Board and makes recommendations as to the number of securities to be issued. This scheme is flexible and provides additional incentives to encourage staff to perform in an exceptional manner. Although executive Directors are eligible to participate in this scheme, any allotment of securities to them will be subject to shareholder approval as required under the Corporations Act and the Listing Rules.

6.4 Restriction agreements

Vendors taking up Shares under this Prospectus will enter into voluntarily escrow agreements for a period of 18 months from the Issue Date and will consent to the application of a holding lock by the Company's Share Registry.

6.5 Deeds of access and indemnity

Cardno Limited has entered into deeds of indemnity and access with each of the Directors. By deed of indemnity, the Company has undertaken, consistent with the Corporations Act, to indemnify each Director and officer in certain circumstances and to maintain directors' and officers' insurance cover in favour of the Director or officer for 7 years after the Director or officer has ceased to be a Director or officer of the Company.

By deed of access, the Company has undertaken with each Director to maintain a complete set of the Company's board papers and to make them available to the Director for 7 years after the Director has ceased to be a Director.
