

COMMERCIAL

Commercial projects require a specialist approach. The Cardno Grogan Richards team is focused on providing innovative, efficient engineering solutions that meet the exacting needs of commercial sector clients.

Cardno Grogan Richards Commercial has the skills base to undertake a diverse array of commercial projects including retail developments, infrastructure delivery, residential apartments, office developments and high-density residential villages. Having worked with Australia's leading developers, architects and project managers, we have the experience to create exceptional outcomes for your next project.

PROJECT MANAGEMENT

COMMITTED

Cardno Grogan Richards' Commercial Department provides clients with design, documentation, tendering and construction management. Client satisfaction and providing a quality service is a priority for any project we undertake. Our commitment to quality processes includes adherence to ISO 9001 accreditation.

Principals Ralph Lowe and Peter Perkins head the Department's team with day to day activities managed by Peter with close assistance from Tony DiGiuseppe our Commercial Group Associate. Specialist work groups are formed in response to specific projects and consist of a Principal, senior engineers, designers and draftspeople. A continual design & review process by the team ensures intuitive, cost effective solutions.

- Sandringham Yacht Club
- Endeavour Cove Patterson Lakes

INTEGRATED

Being part of a multi-disciplinary company is a distinct advantage. When required, our team is in a position to call on the additional skills of the practice's Traffic, Structural, Construction, Water, Infrastructure, Building Services and Land Development groups.

The Commercial Group also provides tendering, contract administration and construction supervision services to ensure projects are completed in accordance with their intended purpose and functions.

Seeing projects through to completion of the construction phase ensures the details and the quality is not overlooked or compromised.

Our engineers and designers work closely with the clients consultant teams. Project information is integrated from architects, service engineers, quantity surveyors, builders and landscapers to make the design and construction process as seamless as possible.

Whatever your commercial project, Cardno Grogan Richards has the staff and resources to meet your needs and provide a commercial design service within the context of a multidiscipline engineering practice. It's a difference that will help ensure a healthy bottom line for your company.

KEY TEAM MEMBERS

Ralph Lowe

As the Civil Business Unit Manager and with over 20 years experience in the commercial development industry Ralph still maintains a keen interest in key Commercial Group projects. Reviewing and providing guidance to projects as they develop, his broad ranging civil design experience ensures optimum outcomes for clients.

Peter Perkins

Peter fulfills the role of Principal of the Commercial Group. Peter provides a personalised service to his clients and his hands on approach ensures Cardno Grogan Richards' in-built systems and balances leaves little margin for error.

Tony DiGiuseppe

Tony plays a crucial role as the Associate managing day to day workload in the Commercial Group. Responsible for the management of many major retail developments, Tony has key skills in feasibility studies, design documentation and construction supervision of both civil and hydraulics works.

Rob Henry

Also an associate of Cardno Grogan Richards, Rob plays a vital role in our commercial developments, storm water drainage, road construction projects and Wetland developments. He has broad ranging knowledge in construction methods, contract documentation, construction management and construction supervision.
