

CIVIL CONSTRUCTION

Cardno Grogan Richards' Construction Department provides a professional solution to construction management in all aspects of civil works. It is our goal to ensure that projects are completed on time and within budget, through a transparent process that satisfies our clients' needs.

Civil construction projects require a depth of experience and knowledge over many diverse fields. From small water mains to major subdivisions, Cardno Grogan Richards offer the ability to manage all onsite situations. We understand construction, and possess the capacity to meet every challenge. Having worked with Australia's leading land and commercial developers, architects and project managers in both private and public sectors, we have the experience and ability to ensure exceptional outcomes for your next project.

COMMITTED

Cardno Grogan Richards' Construction team provides clients with a high standard in tendering and construction management.

Standards are everything to us. Our commitment to quality processes includes adherence to ISO 9001 accreditation. We take the design documents produced by our multi disciplinary practice and follow it through to the ultimate resolution of the project on site.

We can be a major factor in the overall success of a development, working in unison with the client and the contractor, facilitating a team approach to ensure the satisfactory completion of the project.

RESOURCES

The Construction Department comprises a permanent staff of talented professionals. Each team member has been carefully chosen to provide complementary skills that enhance the group's overall capabilities. We also have the resources to call on the expertise of engineers to undertake remote site supervisions.

Working together as an effective management team, Associate Rob Henry heads the department's team and controls the daily matters involving the commercial and wetlands areas, whilst Tim Davis controls the daily matters involving land development, sewerage and water developments. Ralph Lowe oversees the department and is ultimately responsible for the group.

Projects are handled by the department's experienced construction engineers who bring a wide range of expertise and are dedicated to the successful completion of a project.

INTEGRATED

Being part of a multi-disciplinary company is a distinct advantage. When required, our team is in a position to call on the additional skills of the practice's Civil, Commercial, Waterways, Hydraulic and Land Development groups, to make the construction process as seamless as possible.

Whatever your construction project, Cardno Grogan Richards has the staff and resources to meet your needs and provide a construction design service within the context of a multidiscipline engineering practice. It's a difference that will help ensure a healthy bottom line for your company.

KEY TEAM MEMBERS

Ralph Lowe

As the Civil Business Unit Manager and the Principal responsible for the Construction Group, Ralph takes a keen interest in all Construction projects. Reviewing and providing guidance to projects as they develop, his broad ranging civil design experience ensures optimum outcomes for clients.

Rob Henry

As the Associate managing our Construction Group, Rob plays a vital role in our commercial developments, storm water drainage, road construction projects and Wetland developments. He has broad ranging knowledge in construction methods, contract documentation and construction management and construction supervision.

Tim Davis

Tim specialises in our residential subdivisions, unit developments and sewerage and water reticulation construction projects. He possesses key skills in construction methods, contract documentation and construction management and construction supervision.
