

INTERN PROGRAM

To: Interested Students

Our firm needs the right people – genuinely interested in our specialist area and keen to learn. Our Intern Program is the chance to discover if this is you!

The program seeks to provide future professionals with an insight to into the types of work opportunities, and the challenges and rewards of working in a specialist private consultancy. It is anticipated that students would commence in their 3rd year of study and depending on performance the period would be extended to the 4th year. We are seeking high calibre entrants into the program with a view to having them join our team on graduation.

Selection

Applications are invited from 2nd and 3rd year students in engineering courses at UQ and QUT. Selection is based on strength of interest in the traffic and transportation area, and academic performance in relevant subjects.

Work Involvement

We would like the interns to work the mid semester break with us and a substantial part of the summer break. The intern will be guaranteed at least 8 weeks vacation practice work each year and also will be offered casual part time involvement in projects during the semester. This latter work will be on an as required basis taking account of the intern's other commitments and availability of work in the firm.

Applications

Interested Students should email an application including their resume and an outline of results to date to eop@eo.com.au. Please identify the email subject as "EOP Intern Application" to assist our internal processing.

If you have any questions call John Olsen or Brett McClurg on (07) 3310 2401.
