

Wangara Industrial Subdivision

Location

Perth, Australia

Start Date

June 2000

Responsibilities

Subdivision and construction surveys for industrial land development.

Project Scope

Since 2000, Cardno Spectrum Survey has been supplying cadastral and construction survey services at Landcorp's Enterprise Park in Wangara. The estate located in Perth's northwest corridor covers an area in excess of 140 hectares and houses 250 businesses with further expansion planned.

Cardno Spectrum Survey continue to provide all office and field services for the subdivision including pre-calculation plans, the production of sales plans, pegging of lots, preparation of legal documents to achieve issue of titles and liaisoning with client, co-consultants and statutory bodies.

Other survey services underpinning the project's infrastructure development include establishing primary control networks, topographical surveys, quarrying, earthworks, underground services, road construction and as constructed surveys.

Client

Landcorp
Perth WA
