Reporting questionnaire

Gender equality indicator 1: Gender composition of workforce

This indicator seeks information about the gender composition of relevant employers in a standardised format, to enable the aggregation of data across and within industries. The aggregated data in your workplace profile assists relevant employers in understanding the characteristics of their workforce, including in relation to occupational segregation, the position of women and men in management within their industry or sector, and patterns of potentially insecure employment.

NB. IMPORTANT:
• References to the Act mean the Workplace Gender Equality Act 2012.
• A formal ‘policy’ and/or ‘formal strategy’ in this questionnaire refers to formal policies and/or strategies that are either standalone or contained within another formal policy/formal strategy.
• Data provided in this reporting questionnaire covers the TOTAL reporting period from 1 April 2019 to 31 March 2020. (This differs from the workplace profile data which is taken at a point-in-time during the reporting period).
• Answers need to reflect ALL organisations covered in this report.
• If you select “NO, Insufficient resources/expertise” to any option, this may cover human or financial resources.

1.13 If your organisation would like to provide additional information relating to gender equality indicator 1, please do so below.

Gender equality indicator 2: Gender composition of governing bodies

Gender composition of governing bodies is an indicator of gender equality at the highest level of organisational leadership and decision-making. This gender equality indicator seeks information on the representation of women and men on governing bodies. The term “governing body” in relation to a relevant employer is broad and depends on the nature of your organisation. It can mean the board of directors, trustees, committee of management, council or other governing authority of the employer.

2. The organisation(s) you are reporting on will have a governing body. In the Act, governing body is defined as “the board of directors, trustees, committee of management, council or other governing authority of the employer”. This question relates to the highest governing body for your Australian entity, even if it is located overseas.

2.1 Please answer the following questions relating to each governing body covered in this report.
Note: If this report covers more than one organisation, the questions below will be repeated for each organisation before proceeding to question 2.2. If your organisation's governing body is the same as your parent entity's, you will need to add your organisation's name BUT the numerical details of your parent entity's governing body.

2.1a.1 Organisation name?
Cardno Staff Pty Ltd

2.1b.1 What gender is the Chair on this governing body (if the role of the Chair rotates, enter the gender of the Chair at your last meeting)?

<table>
<thead>
<tr>
<th></th>
<th>Female</th>
<th>Male</th>
</tr>
</thead>
<tbody>
<tr>
<td>Number</td>
<td>0</td>
<td>1</td>
</tr>
</tbody>
</table>

2.1c.1 How many other members are on this governing body (excluding the Chair/s)?

<table>
<thead>
<tr>
<th></th>
<th>Female</th>
<th>Male</th>
</tr>
</thead>
<tbody>
<tr>
<td>Number</td>
<td>2</td>
<td>4</td>
</tr>
</tbody>
</table>

2.1d.1 Has a target been set to increase the representation of women on this governing body?

☐ Yes
☒ No (you may specify why a target has not been set)
☐ Governing body/board has gender balance (e.g. 40% women/40% men/20% either)
☐ Currently under development, please enter date this is due to be completed
☐ Insufficient resources/expertise
☐ Do not have control over governing body/board appointments (provide details why):
☐ Not a priority
☒ Other (provide details):

No specific target has been set, however while the current board works well, over time as new directors are sought there is a focus by the board on balancing the gender representation with a bias for female candidates when considering any new appointments.

2.1g.1 Are you reporting on any other organisations in this report?

☐ Yes
☒ No

2.2 Do you have a formal selection policy and/or formal selection strategy for governing body members for ALL organisations covered in this report?

☒ Yes (select all applicable answers)

4.01 You may provide details below on the type of gender remuneration gap analysis that has been undertaken (for example like-for-like and/or organisation-wide).

In 2019, Cardno conducted a Gender Pay Gap analysis comparing like-for-like salaries between Females and Males, company wide and also by location. Analysis was conducted comparing positions within the same Job Family (e.g. Engineers), the same Job Title (e.g. Senior Traffic Engineer) and the same Job Level (e.g. Job Level 15). A variety of analysis was conducted that also includes a company wide comparison and review and also more condensed analysis using location as another comparison indicator. Following this analysis, each Division was then tasked with creating an action plan to address any gender related gaps which were identified. Our Global CEO publicly shared the results of the GPG. We plan to undertake the Gender Pay Gap analysis bi-annually and will undertake this exercise again in 2021.

4.1 Did you take any actions as a result of your gender remuneration gap analysis?
☐ Yes – indicate what actions were taken (select all applicable answers)
☐ Created a pay equity strategy or action plan

☐ Set targets to reduce any organisation-wide gaps
☐ Reported pay equity metrics (including gender pay gaps) to the governing body
☐ Reported pay equity metrics (including gender pay gaps) to the executive
☐ Reported pay equity metrics (including gender pay gaps) to all employees
☐ Corrected like-for-like gaps

☐ Implemented other changes (provide details):
☐ No (you may specify why no actions were taken resulting from your remuneration gap analysis)
☐ No unexplainable or unjustifiable gaps identified
☐ Currently under development, please enter date this is due to be completed
☐ Insufficient resources/expertise
☐ Salaries set by awards/industrial or workplace agreements
☐ Non-award employees are paid market rate
☐ Unable to address cause/s of gaps (provide details why):
☐ Not a priority
☐ Other (provide details):

4.2 If your organisation would like to provide additional information relating to gender equality indicator 3, please do so below:

Women in Cardno (WiC) is Cardno’s gender equality program. One of the five key goals of the program is to provide a program of work to understand and present recommendations to address any GPG. The WiC program has developed a approach that will communicate and educate managers and employees on the GPG. Additional strategies to maintain the focus on GPG and the potential for it within Cardno involve the delivery of Unconscious Bias training (focused on Managers of people but available for all employees), HR guidance to managers regarding starting salaries, annual salary reviews, annual bonuses and salaries on promotion (ensuring that anomalies are not created and all salaries are looked at with a comparison view of like for like employees). Formal gender pay gap analysis is now conducted bi-annually at Cardno. Furthermore, Cardno will be developing a process to analyse and identify where potential gaps are stemming from (i.e. recruitment or promotion processes etc).
Gender equality indicator 4: Flexible working and support for employees with family and caring responsibilities

This indicator will enable the collection and use of information from relevant employers about the availability and utility of employment terms, conditions and practices relating to flexible working arrangements for employees and to working arrangements supporting employees with family or caring responsibilities. One aim of this indicator is to improve the capacity of women and men to combine paid work and family or caring responsibilities through such arrangements. The achievement of this goal is fundamental to gender equality and to maximising Australia’s skilled workforce.

5. A “PRIMARY CARER” is the member of a couple or a single carer, REGARDLESS OF GENDER, identified as having greater responsibility for the day-to-day care of a child.

Do you provide EMPLOYER FUNDED paid parental leave for PRIMARY CARERS that is available for women AND men, in addition to any government funded parental leave scheme for primary carers?

☐ Yes. (Please indicate how employer funded paid parental leave is provided to the primary carer):
  ☑ By paying the gap between the employee's salary and the government's paid parental leave scheme
  ☑ By paying the employee's full salary (in addition to the government's paid scheme), regardless of the period of time over which it is paid. For example, full pay for 12 weeks or half pay for 24 weeks
  ☑ As a lump sum payment (paid pre- or post- parental leave, or a combination)

☐ No, we offer paid parental leave for primary carers that is available to women ONLY (e.g. maternity leave). (Please indicate how employer funded paid parental leave is provided to women ONLY):
  ☑ By paying the gap between the employee's salary and the government's paid parental leave scheme
  ☑ By paying the employee's full salary (in addition to the government's paid scheme), regardless of the period of time over which it is paid. For example, full pay for 12 weeks or half pay for 24 weeks

18. If your organisation has introduced any outstanding initiatives that have resulted in improved gender equality in your workplace, please tell us about them.

(As with all questions in this questionnaire, information you provide here will appear in your public report.)

In 2019, Cardno introduced Shared Care whereby the secondary career could take over as primary carer and access primary carer paid leave benefits in the event the primary carer was returning to work. In the reporting period, seven (7) people have taken up this policy benefit (all of them males), which is a fantastic outcome to encourage shared caring responsibilities for families. Males therefore represent 17% of our people who have taken primary care leave/shared care in the reporting period, compared to 0% in the previous reporting period.
